

Non-invasive medical technology

Pelvic Muscle Stimulation For Confidence

HIPEX

& CMSlim™

Contouring Master™ HI-EMT™

1 out of 2 women can have problems with bladder control

\$10 billion

50%

“About **50 percent** of American women have problems with bladder control and more than **\$10 billion** is spent each year on treatment.”

In women, **prior pregnancies, childbirth, and the onset of menopause** can lead to bladder control problems. Sometimes, the cause is unknown. **It is a very common in elderly woman.**

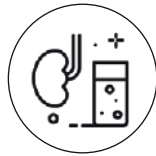

Are you in confidence/uncomfortable right now?

Trouble Working

Anxiety Depression

Urological Infection

Women with bladder control problems can experience physical and mental discomfort.

For example, not only do you suffer physical discomfort such as skin damage and urological infections, but you can also suffer from anxiety, tension, shame and depression.

Pelvic Muscle Stimulation For Confidence

WHY CMSlim™?

For Anybody

Intensive Continuous Contraction

Non Invasive

Remain Fully Clothed

The Kegel treatment and Pelvic floor stimulation have some problems. Kegel treatment has the problem of knowing exactly how to exercise and doing it right. Pelvic floor stimulation has the difficulty of purchasing devices and inserting.

Considering these problems, **CMSlim™ puts patient convenience first.** Sit back and relax. There's no need to take off clothes and move your body.

During the treatment, CMSlim™ delivers intensive continuous contractions for strengthening and retraining the patient's muscles.

CMSlim™ treatment method

Before

Pelvic floor muscles weakened by films of aging and environment

Treatment

Stimulates pelvic floor muscles through an intensive continuous contraction.

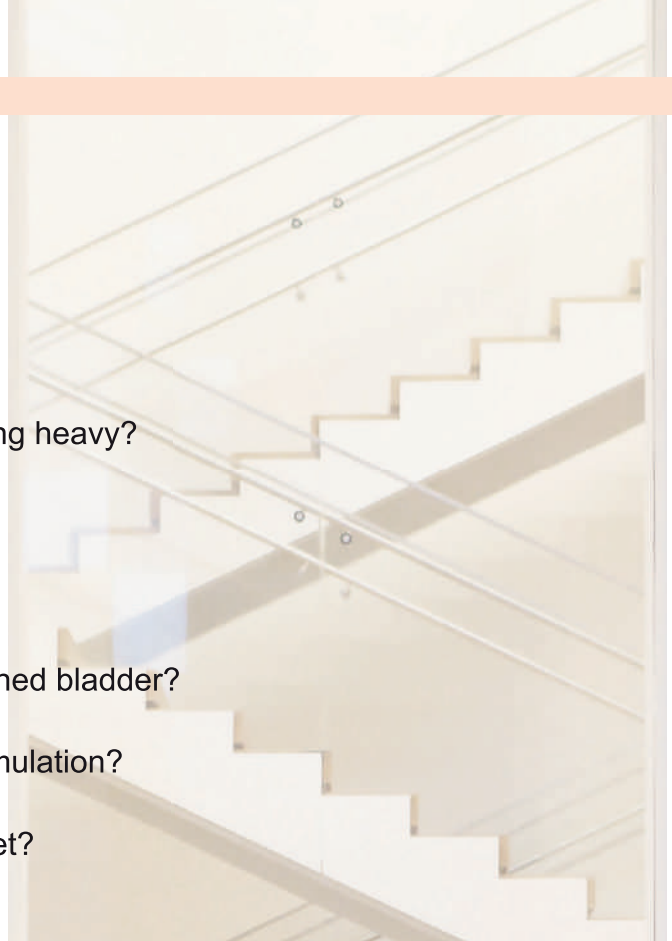

After

Contracted muscles restore the bladder to function properly.

Wait a sec... Do you?

- leak when you cough or sneeze?
- leak when you exercise or lift something heavy?
- leak after childbirth and menopause?
- leak after being overweight?
- have sleep disorder caused by weakened bladder?
- have difficulty inserting pelvic floor stimulation?
- want treatment other than Kegel or Diet?

HIPEX & CMSlim™ Contouring Master™ HI-EMT™

HIGH INTENSITY PELVIC EXERCISE

HIPEX tight pelvic floor muscle and recover bladder function. HIPEX is an add-on to existing CMSlim™ not a separate device.

- Non-invasive
- Remain fully clothed
